NOTABLE FEATURES

Of the Market Were Missouri Pacific and Pennsylvania.

By Associated Press.

New York, June 12.—The stock market fell into semi-stagnation during the latter part of the day and the gains established in the morning were practically wiped out under the dribble of selling orders which came upon the market almost bare of demand. Various points of strength made their appearance during the day, but they lost their influence in sustaining prices.

The most notable features of the market were Missouri Pacific and Pennsylvania, which rose as much as 2½ at one time. Stocks of affiliated companies showed some sympathy. The U. S. Steel stocks were rather significantly heavy, but stocks of independent companies show up in a striking manner. The movement in Colorado Fuel was sensational, the extreme rise reaching 15½. A violent reaction left the stock only 8½ gain.

The general bond market was dull and irregular. U. S. bonds were all unchanged.

GOVERNMENT

Goods Were Bought and Sold and Officials are Investigating.

By Associated Press.

San Francisco, Cal., June 12.—Gen. Shafter, Col. Maus, Inspector General of the Department of California, and the federal grand jury are investigating the reports of fraud committed in the commissary branch of the army service in this city.

For some months various stores about the city have been exhibiting signs, "Government goods for sale here" and their advertisements have appeared in daily papers. Inspector Maus and local detectives began some days ago investigating, which resulted in the arrest today of Lewis Abrams and his son, George, for buying and selling government supplies. Both deny the charge, but a second-hand dealer, Jacob Steveler, states that Abrams sold him twenty pairs of army shoes.

Three big wagon loads of goods have already been seized and in every instance the men from whom they were taken admitted buying the goods from Abrams and his son.

Capt. Seymour, of the local detective force, stated today that the government officers discovered large quantities of goods stolen from the government. The goods were stored in a warehouse and consisted of all kinds of military supplies.
